

LoRa IoT Solution

LoRa Gateway LN-A1

IP65 Rugged LoRa Gateway for in/outdoor applications

Key Features

- Low power consumption
- LoRaWAN compliant
- IP65 chassis
- Long transmission range up to 1 Km
- 16 selectable LoRa bands
- OS – Android 6.0
- IP65 antennas – 1x LoRa, 1x 3G/LTE, 1x Wi-Fi, 1x GPS.

LoRa Edge Sensor LE-01

T/H/L Sensor with battery support

Key Features

- Ultra low power consumption
- Ultra long range communication
- Sensors – humidity, temperature and light sensor

LoRa Actuator LE-81

Dry contact actuator

Key Features

- Multi channels and multi spread factor receiving
- 16 selectable LoRa bands
- Two dry-contact relay switches for external devices control
